

news

DEAR all,

1 STUDY DISSEMINATION

- Congress presentations since May 2022:
 - Conference on Bioinformatics and Biomedical Engineering 2022 - Gran Canaria (27th to 30th June)
 - 40th congress at the ESCRS 2022 - Milan (16th to 20th September)
 - 23rd EVER congress - Valencia (13th to 15th October)

2 STUDY PROGRESS

- Solving of doubts or queries regarding the software whenever needed to ensure the continuity and fluidity of patient recruitment.
- Updating the VEMoS project webpage with events, dissemination or news
- Assessing the different possible studies with a view to presenting at future congresses
- Promotional video regarding the challenges and benefits for society with the target on general public. Link to access the resource: <https://www.youtube.com/watch?v=1nO2OtMwCCU>

3 WHAT NEXT?

- Finish with the writing of an abstract to present at the 27th ESCRS Winter Meeting Vilamoura from 10-12 March 2023
- Continue with the recruitment of participants with untreated eyes and treated eyes and complete the deliverables to come
- Stay tuned for upcoming news and statistics on advances in the clinical trial!

VEMoS is a Project funded by the European Commission

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 878748
